SHARP NOTE WAS SENT CARRANZA

Washington Demands Improved Conditions in Mexico City—Note Is Almost an Ultimatum.

[By Associated Press.]
Washington, March 8.—New and urgent representations, amounting practically to a warning, was sent by the United States to Carranza, demanding improvement in conditions in Mexico City. Diplomats who know the contents of this note, sent via Consul Silliman, interpret it as an entire change of policy by Washington on the Mexican situation.

Some officials said it contained the strongest representations yet made to Carranza, indicating the United States was rapidly losing patience with his noninterference with Obregon's objectionable actions in Mexico City.

Those who know the contents of the note said it did not threaten force and was not an ultimatum. Secretary of the Navy Daniels said no additions were planned to the fleet in Mexican waters, but later it was learned the cruiser Tacoma was ordered to Vera Cruz from Haiti.

The foreign diplomatic corps is still in Mexico City as far as is known here.

The note was partly based on sensational charges in a petition recently sent the State Department by a relief committee from the Mexico City foreign colony. This report was not published because it might hurt foreigners in Mexico.

The work of putting in the curb and gutter around the First Baptist Church, under Contractor W. J. Ratliff, was started today, and will be completed as quickly as possible. The work on the curb and gutter around the City Park is almost completed.
